

## USP

1. Doubt sessions by the creators
2. Post exam counselling
3. Tests curated by Gate toppers, IIT'ians and scientists. Every topic is covered extensively with increasing level of difficulty.

## MISSION

Our mission is to create a Launchpad for Gate/UPSC aspirants

## BRAND STORY

As passionate teachers, we have seen that merely training to solve problems won't help you qualify for Gate. Gate exams requires a good strategic plan.

We at GammaGate analyse past question papers, the syllabus and then prepare test modules that will help you cover each and every topic extensively. We prioritize important concepts since they carry the highest percentage of marks. Rarely asked topics are covered thoroughly that will give you the edge.

## BEHIND THE SCENES

Our team is working everyday to dish out challenging questions and preparing newer tests. We are also gearing up to launch our educational videos that will enhance learning.
