

TAMILNADU CEMENTS CORPORATION LIMITED

SINCE 1976

(A Government of Tamil Nadu Undertaking)

43 GRADE - ORDINARY PORTLAND CEMENT (OPC-43)

The Choice of Cement plays a major role in the process of Construction. 43 Grade OPC or Ordinary Portland Cement is well known widely for the plastering works, non- RCC works, pathways which reaches the comprehensive strength of 43MPa in a cube cast by 28 days in common.

PORTLAND POZZOLANA CEMENT (PPC)

Portland Pozzolana Cement (PPC) is a widely used cement for general construction. Due to the lesser proportion of minerals, it is a preferred cement in terms of its environment protection. PPC Cement is mostly used in the construction of heavy projects like dams, dykes, retaining walls foundations, sewage pipes, etc.

Ariyalur Cement Works (0.5 MTPA plant)

The second cement plant of TANCER commenced its operation in 1979. It is a 5 lakh ton per annum plant and adopts pre heater technology. It manufactures OPC 43 grade & PPC under the "ARASU" brand.
